

A bedroom interior featuring a bed with a yellow and white patterned duvet, a striped armchair, and a large window with a view of a green landscape. The room has a vaulted ceiling with a decorative wooden lattice pattern. A dark red banner with white cursive text is overlaid on the right side of the image.

# *Old Creek*

*Old Creek*

Instant comfort...

...in a matter of seconds.

hidden away...

A bedroom interior with a warm, beige color palette. A bed is the central focus, dressed in a yellow and white patterned duvet and white pillows. To the left, a striped armchair sits near a window with brown curtains. The walls are decorated with framed landscape paintings, including one of a moose and another of a bear. A small table with books is visible on the right. The text "...and easily available." is overlaid in the center.

...and easily available.

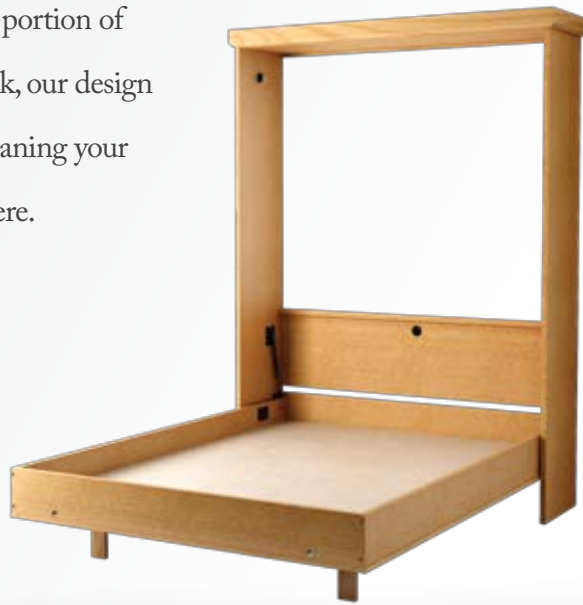

...yet always in style.

# Murphy Beds

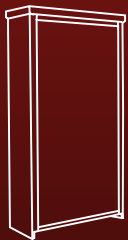

At Old Creek, we pride ourselves on our ability to give you what you want. We have the knowledge, the experience and the resources to create the piece you're looking for. Take a moment to browse through some pieces we've featured from our traditional & contemporary lines. Keep in mind that these represent only a small portion of our inventory. At Old Creek, our design capabilities are endless - meaning your search for a solution ends here.

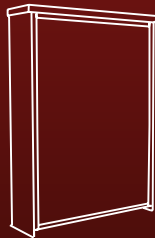

FROM  
TRADITIONAL

# Accessories

Count on us to provide you with all the Murphy Bed accessories you need. We offer a large collection of bedding essentials, from pillows and mattresses to featherbeds and comforters. By having everything available to you in one location, you can enjoy the convenience of placing one order and receiving everything at the same time.

*everything from  
pillows to ...*

## MATTRESSES

Whether you need a twin or queen, firm or plush, medical mattress or guest bed, we have the mattress for you. Our wide variety of mattress options gives you the ability to create the perfect bed for all your needs.

## COMFORTERS

Compliment your Murphy Bed with a top of the line down filled comforter, or create a value based solution with our poly fill options. Either way, you'll receive your bedding the same day as your Murphy Bed.

## **PROTECTORS**

For multiple use settings, such as lodges and hotels, we recommend our pillow and mattress protectors. Eliminate costly replacements and provide your customers with an enhanced experience.

## **FEATHERBEDS**

Get premium comfort without the premium price. Add a featherbed to any mattress for increased comfort and protection. All in one delivery makes this a quick and smart comfort solution.

## **LIGHTING**

Add touch sensitive 3-mode dimmable lights to your Murphy Bed and eliminate the need for bedside lighting. Add the ultimate in function and comfort with this stylish option.

## Condos

Enhance the appeal of your condominiums by offering a built-in Murphy Bed as a component design option. This space-saving option increases your customer's interior design flexibility, which in turn, increases your selling power.

## Lodges & Resorts

Your customers are looking for more than just a place to sleep. They come to you for an experience. Freeing up valuable space with a Murphy Bed exponentially enhances the experience you offer.

## Fire Stations

The last thing a fire station should worry about is space. However, many stations face the challenge of housing comfortable sleeping quarters. Murphy Beds provide each individual on duty a large, comfortable bed while simultaneously providing room for recreation, training and exercise.

# We want to work for you.

## Cruise Ships

Space is at a premium while rolling on the high seas. Murphy Beds allow ships to increase room occupancy levels and carry more passengers, while providing additional space within each cabin! Take your cruise from ordinary to extraordinary through the use of our beds.

## Government

Designing government-sponsored projects presents its own set of unique challenges. Old Creek has the experience working with universities, hospitals and military institutions that you demand out of a partner. Trust us to help make your project a success.

## High Rises

High rises offer a logical opportunity to use Murphy Beds. As your buildings scale vertically, maximize your usable square footage and return on investment by saving space with our bed systems.

Whether faced with space dilemmas at sea, strict government rules or the need for profit increasing solutions, we have what you need. We have worked with your industry and understand that every situation is unique. You have needs, we have options. We can make your space work.

# QUALITY

## IN DESIGN

As the nation's premier Murphy Bed manufacturer, we've always believed that good design merges style with functionality and that the value of a product should be

measured by the quality of its components and construction. You can take comfort knowing that we've paid attention to all the details. Trust us to choose the finest materials and to masterfully integrate

old world handcrafted techniques with state-of-the-art engineering to create furniture that will endure the test of time.

## IN SERVICE

Quality service has been the signature hallmark of Old Creek for over 30 years. Our customer service team receives ex-

tensive training on product design, construction and installation so that they can assist you with every step of the process.

Buy with confidence knowing that we have stood by our product for decades and will continue to do so for years to come.

# ENGINEERING

## CAD/CAM TECHNOLOGIES

Our design team understands the importance of integrating care and precision from the beginning of the design process. This is why we've invested in technologies such as CAD/CAM design and manufacturing. By utilizing these technologies

we can take your specifications and design 3D computerized models. Once the models have been built, you'll not only be able to see exactly what your pieces will look like in your intended room, but you'll also know that every component of your fin-

ished Murphy Bed is precise to an 1/1000 of an inch. By using both CAD/CAM technologies, our end products are ones that we stand by, not because we think they're the best Murphy Beds on the market, but because we know they are.

## SEAMLESS ASSEMBLY AND EFFORTLESS INSTALLATION

A Murphy Bed should be easy to assemble and easy to install. Period. That's why we use CAD/CAM design and manu-

facturing technologies. This ensures that the precision cut pieces you receive will fit together seamlessly and as a result, your

installation experience will be nearly effortless.

# PROFIT

## RECLAIM YOUR REAL ESTATE

With the ever-increasing costs of commercial real estate, it is imperative to take full advantage of your square footage. Simply introducing a Murphy Bed to a

standard size room will let you reclaim over 60% of useable loor space. How is that so? In an average 10x10 foot room, a standard Queen bed will con-

sume nearly 62% of the room's square footage. Replace the queen bed with a queen Murphy Bed and practically all of that loor space is now available for use.

## INCREASE YOUR PROFIT MARGINS

How will all this affect your bottom line? When the amount of useable space in a

room increases, your cost per square foot decreases. This decrease in overall costs

will have a direct impact on your profit margins – a positive one. Simple as that.

# SCALABILITY

## GLOBAL DELIVERY

In today's world there are no geographical boundaries when it comes to running a successful business. Your company is expanding to new territories and we're

ready to help you make it a successful endeavor. We can drop-ship our Murphy Bed products to any location in the world – efficiently and inexpensively. We

are here to meet your needs, whatever (or wherever) they may be.

## JUST-IN-TIME MANUFACTURING

Do you have large order needs but need to receive orders week-by-week? We're ready to help. We pride ourselves in exceeding our customers' expectations.

With our leading supply logistic technologies we have the scalability and infrastructure to bring your projects – big or small - to life. Just-in-time manufac-

turing allows us to create what you need, when you need it.

# ENVIRONMENTAL

## OUR MISSION

For over 30 years we have consistently balanced the demands of running a manufacturing business with our concerns

for environmental care. We've welcomed these challenges and have proudly stood by our mission to conduct our practice in

a way that will ensure a better world for future generations. We care about the environment. Always have, always will.

## OUR ACTIONS

How have we accomplished this balance? We begin by utilizing sustainable wind energy and end by bringing certified FSC sustainable products to the market.

We use eco-friendly finishes and insist on employing advanced recycling practices. We know that every little bit helps. When you choose Old Creek you can

take comfort knowing that you are with a company that cares.
